Spiritual Humbug Exploded. A band of Spiritualists have been giving exhibitions in Columbus, Onio, dar ing which drums, tamborines, e.c., were played upon by some supernatural agency. Of course the performances were all in the dark. Matters went on finally till last Friday night, on which occasion the conjurations, and mighty magic, which worked the miricles, were every one re-

The hall, says the Journal, was quite full, and the performance proceeded on according to the programme of the preceding evening, when the lights were put out and the hymns were sung. The benevers sat in the front circle. The medrum took her seat beside the old gentle man, and at length the admonitory tap of the drum and the gingle of the tambo rine gave token that the spirit king was about coming among us to beat a tune and jingle a refrain. He was admitted, and amid silence and darkness, he beat and banged away upon the drum, and the tamborine shook with ecstacies, and the believers felt how good it was to be there, when presto change, some wicked unbeliever struck a light, which at once exposed the swinding imposition. The Agamenon, which has been devoted to the peaceful service of laying down a part of the Atlantic submarine telegraph cable, is now undergoing the necessary alterations at Portsmouth. Her armament of ninety guns is being removed, her hold cleared, and her stowage room increased. She is to be fitted with a frigate's masts instead of her present rig of a line-of-battle-ship. It will be remembered that this is the famous Agamenon, the flag ship, which took up such a daring and perilous position right in front of the united fleet before Sebastopol, and earned such glory for her compol, and earned such glory for her commander. On the other side of the Atlantic the Niagara is undergoing similar preparation for the same object. She is the largest screw propeller in the hare of public patronage. Now mportance that a few doses be used by the wise. Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but

Brandreth's Pills afford an invaluableand efficient protection. By their occasional use, we prevent the colection of those impurities, which, when in sufficient quantities, cause so much danger to the fine organs of the stomach and bowels. They soon cure liver complaint, dyspepsia, loss of appetite, pain in the head, neart-burn, pain in the breast-bone, sudden faintness and costiveness. In trief, Brandreth's Pills work their way to the very roots of the disease, cleansing in their passage, removing every unhealthy accumulation, tilthe blood is purified, the whole system renovated, and the functions and duties of life become a pleasure
